

FCC filing 04-233

As a listener of K-LOVE FM radio in Portland, Oregon I would like to comment on the proposed use change of LPFM stations.

K-LOVE, in particular, serves the greater Portland area on several FM translators providing a positive, wholesome, family oriented alternative to most current music stations. K-LOVE offers individuals who are in the process of discovering their faith and the seasoned saints the opportunity to listen to Christian music in a non-threatening environment. The music presented is a variety of popular, up beat, fast moving, guitar strumming, drum beating music appreciated by a younger crowd to more melodic, slow moving more romantic sounds enjoyed by an older crowd. The lyrics all have a positive message to reach the soul of the listener.

As a person past 50, I enjoy the rhythm of the music, the lyrics and feeling of joy I have while listening. The Christian message is presented in a low-key fashion without beating the issue to death. It's important to hear the DJ's having fun and laughing hopefully dispelling the theory that Christians are long-faced, dour people without a sense of humor. Regardless of what is happening in my day, it seems there is music to touch my every need.

I cannot believe my life is unique among listeners. A big void would exist without the benefit of this positive radio station. Please continue the licensing of LPFM stations as they currently exist.
